Introduction

Second You is a Polish brand of unique activewear. Founded in 2014 in Wrocław, Poland, it was originally created to fill the niche of sports clothes for women who aspire to maintain their own style in every situation, including training. Second You challenges the trend of black workout uniform and offers original selection of colorful outfits inspired by ethnic tattoos, yoga culture and natural beauty themes.

Its clothes are designed by international artists and produced in the European Union. Unique prints and breathable, perfectly fitted fabrics make the Second You activewear feel like the “second skin”.

Production process

Designing

Second You clothes are designed based on multiple conversations with active and passionate females – mothers, managers, artists – who share their expectations and needs in terms of activewear. Our own experiences provide another source of inspirations with a goal to create clothes that we ourselves want to wear everyday.

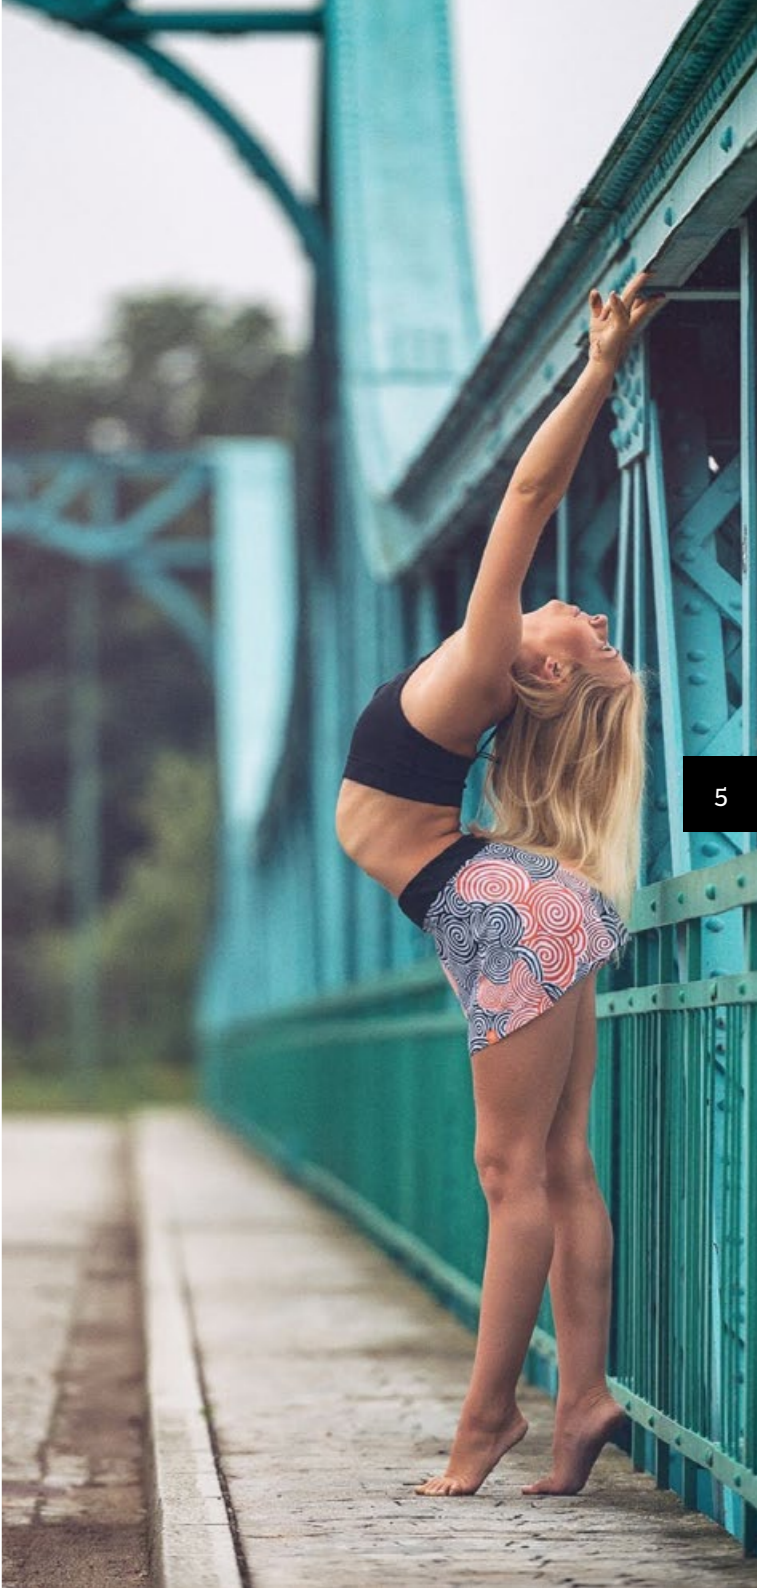

Ethnic tattoo patterns is what makes our clothes unique. We blend exotic, folk tradition with modern blast of colors, creating very special pieces for very special women.

Manufacturing

All our clothes are produced locally in Poland, with the use of most advanced technology to provide our customers with beautiful and sustainable outfits. Before launching a new product, we conduct numerous indoor and outdoor tests to make sure that our clothes well protect your skin and guarantee freedom of movement.

Improving

Second You is a vibrant community of active women who are eager to exchange their ideas and loudly speak their minds. We are always interested and open to learn about our clients’ experiences – both in terms of our products and our services.

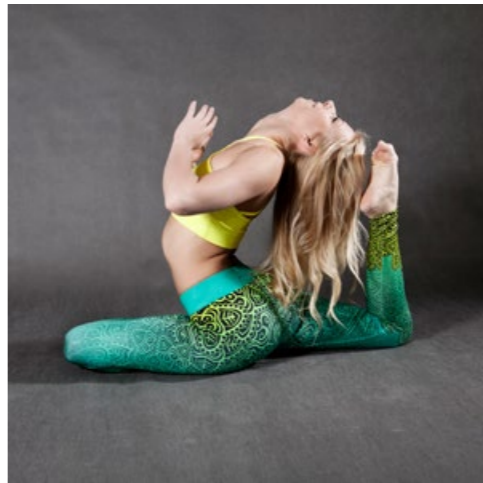

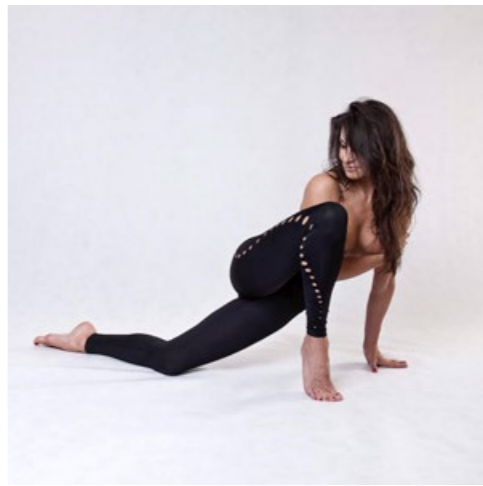

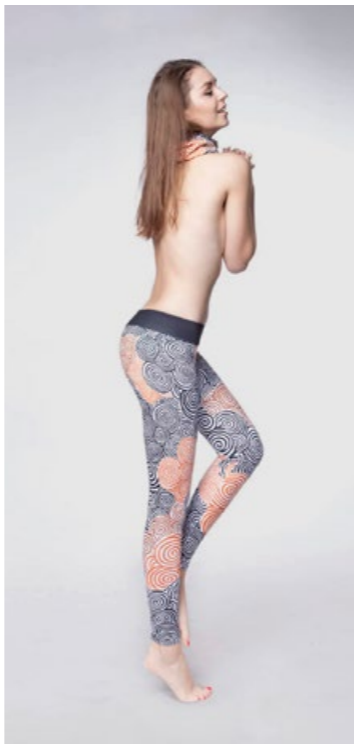

Functionality

- **Breathable Fabrics** (a Clariant® technology) protect your skin from getting sore spots and provide the feeling of freshness even during high-intensity workouts
- **Flexible & Shaping Fabric** easily matches your body shape, slenderizes your stomach and pushes up your bottom
- **Comfort & Protection** with no compromises – external seams provides strong protection while treating your skin gently and reducing the risk of abrasions
- **Advanced Print Technology** guarantees stunning results and quality standing out with precision
- **Lasting Colors & Patterns** turn all your purchases into long-lasting investments and allow you to enjoy favorite pieces for many years.

Comfort and beauty are two core values reflected in every model of Second You leggings. High waist, supported with a wide, elastic strap slenderizes your shape and makes sure everything perfectly stays in place. Thanks to external seams, leggings feel extremely comfortable against your skin and proves reliable in long workouts.

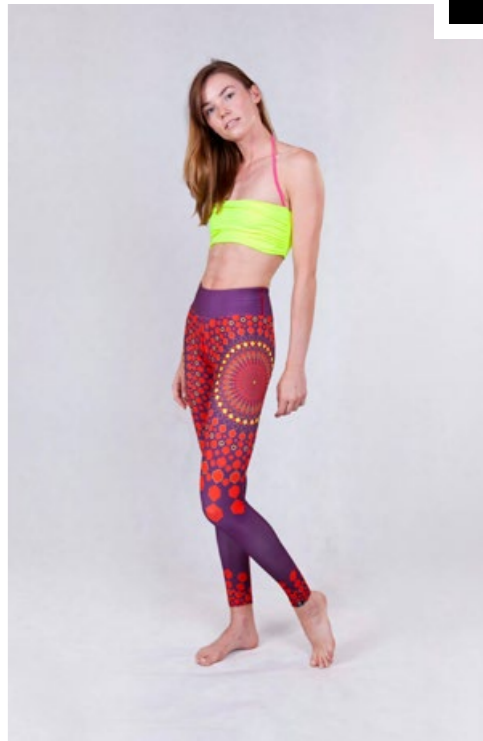

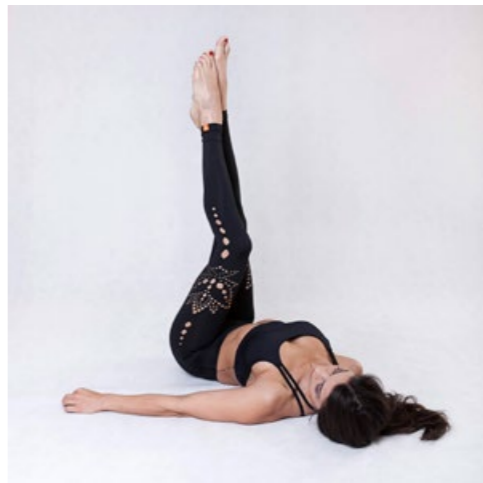

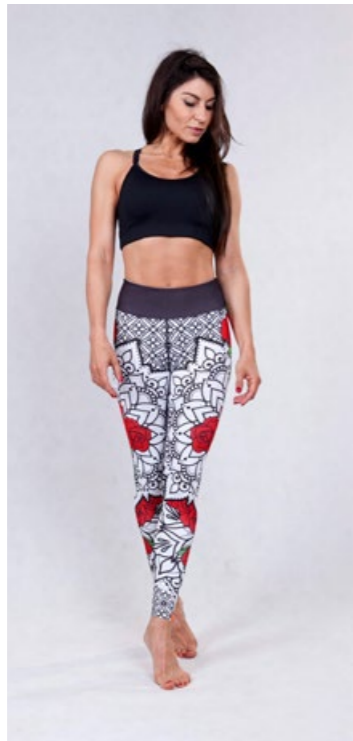

Leggings

8

9

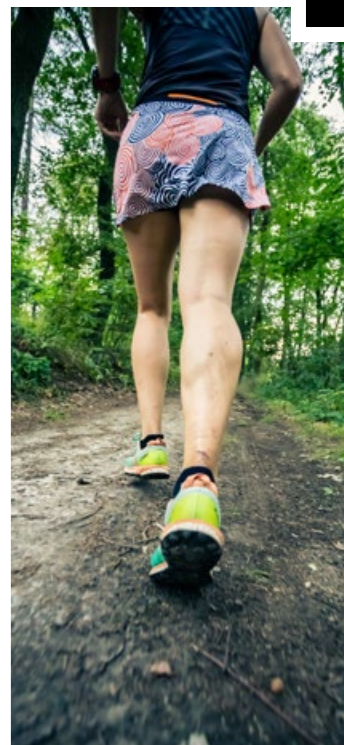

Shorts

The most important thing about clothes is that you feel confident wearing them – that’s why we put you in control of how you want to wear our shorts. The straps on the sides allow you to adjust the length of the legs so you can show just as much skin as you wish. Shorts are made of elastic, yet very tough material that also provides a gentle push-up effect.

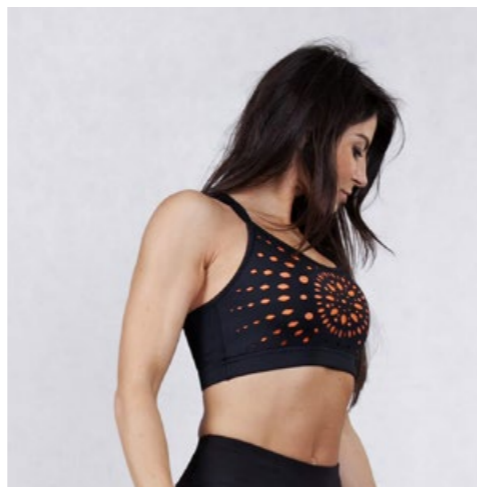

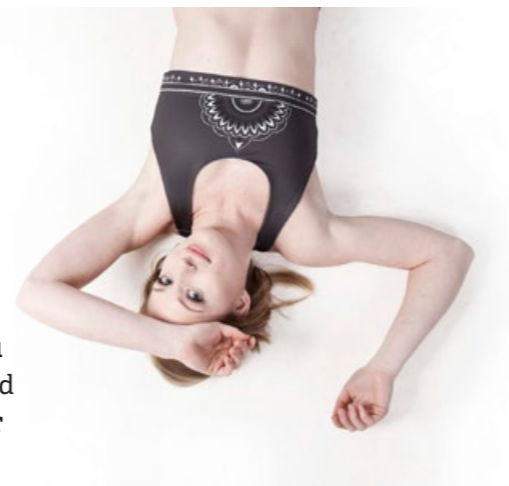

Skirts

Even though we like compromises, we prefer to have the best of both options. Second You sports skirts are equipped with tight shorts underneath to allow comfort of movement while you’re wearing the most feminine designs. A little zipped pocket on the back comes in handy when you need a place to keep your keys.

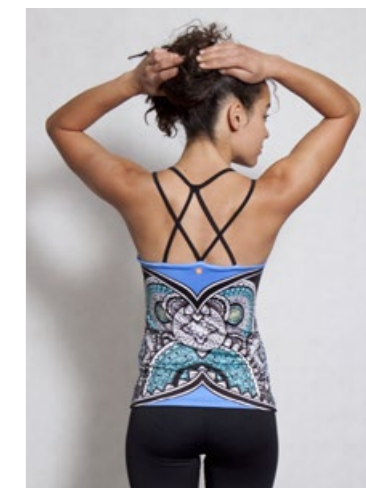

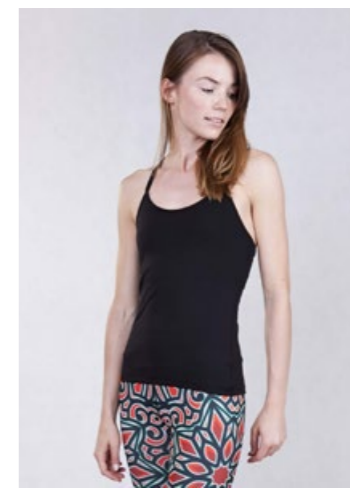

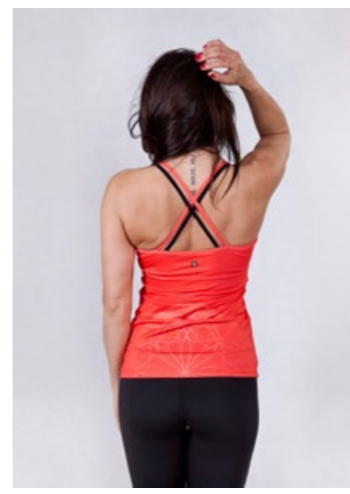

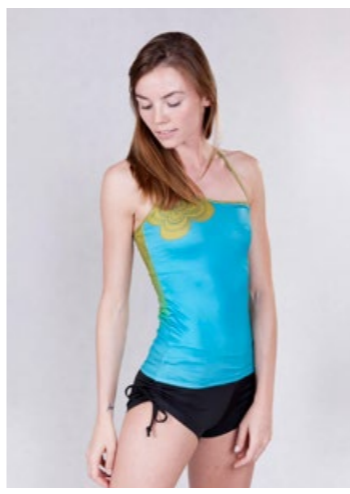

Crop tops

Every women is different which is often reflected in the details. Second You selection of crop tops differs with shoulder-straps system and neckline, colors and patterns. What all the models have in common is dedication to fully support your body when you work out.

Tank tops

Probably the most popular piece in your sports wardrobe – that's why it needs to be 100% reliable. Proven shoulder-strap system, breathable fabric and outstanding designs definitely contribute to a great workout.

Long sleeves

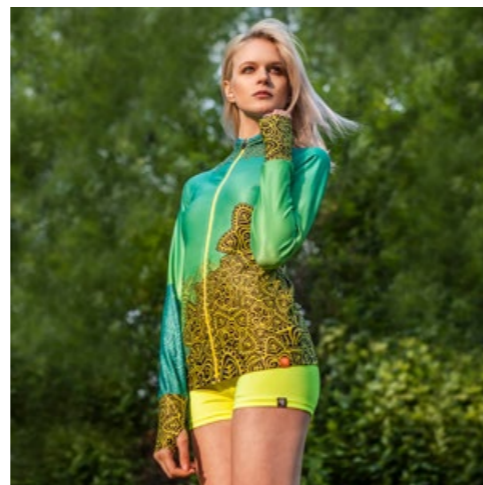

14

Bodysuits

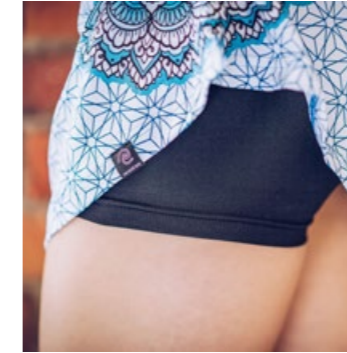

15

Weather is not an excuse – certainly not when you wear one of our long sleeve shirts. Ideal for running, cycling or any other outdoor activity. Modern and breathable fabric isolates your body from the temperature and wind that you can focus on your end goal and push harder!

Designed with the appreciation for women's body, dedicated to those, who value precision of the movement above all. Second You body is the perfect choice when you wish to fully concentrate on your progress and simply forget about the clothes you wear.

Swimsuits

Accessories

The devil is in the detail but we're not just about that. Second You accessories makes your life easier by providing extra support in the most convenient way – just like these protective sleeves. Not to mention these unique tattoos patterns...
